Satisfied Customers!

"You guys did an awesome job! We are speechless. Truck looks great, we love the viper blue color. ARI, you guys are the best. Special thanks to the sales team who went above and beyond, answered all of our questions (which were many) and helped walk us through building our very first big bunk sleeper. There is only one company that will ever build our custom sleepers, and ARI, you are that company. May God bless you all. Thank you!" - Tommy & Sandra Cannon

"An ARI gives you the luxury to have all the necessities every day on the road. You can do everything you need to do anytime, anywhere without looking for a truck stop or having to use truck stop facilities. It saves you from having to leave your truck in all kinds of weather - from being really hot or freezing cold outside. You can shower, eat, and go to the bathroom anywhere, anytime! You can't put a price on it!" - Garey Grannan

"ARI has the best customer service. I haven't had to call them much but when I do they walk me through whatever troubleshooting needs to be done." - Mike Hary

"My only regret is I didn't get into a big bunk years ago....they are game changers." - Tony & Kelly Paluch

"I can honestly say that I myself have never been happier than the day we purchased our first ARI and now we are on our 4th ARI sleeper. I can honestly say I would never go back. This truck has become our second home and for us it's been completely worth the extra money in our payment." - Kristen Porter
